

InViTAG – a web application
for AI-assisted exploration and grouping
of health images and data

Ala Abuthawabeh, Amman Arab University

Michael Aupetit, Qatar Computing Research Institute, HBKU

For data-scientists or domain experts

Exploring scientific image data

Accelerometer data from wearable devices
worn for a *full week* by *264 patients*
with different *overweight / obesity* conditions

device_id	segment_c	start_time	end_time	activity_level
712	1	2/8/2015 14:00	2/8/2015 14:50	moderate
